WORK EXPERIENCE

Storm Group - Security and Defense July 2022 - October 2023
Senior iOS Developer

Development of video player framework for Globo TV iOS apps. Participation in the decision process regarding architecture, design and implementation details. Technical leadership and mentoring of junior developers.

everis August 2021 - June 2022
Senior iOS Developer

Development and maintenance of Itaucard iOS apps for credit card account management. Implementation of UI and business domain components for in-app chat assistance. Mentoring of junior developers.

DevGrid Ltd April 2021 - June 2021
Senior iOS Developer

Research and development of an app for capturing 360° panoramas and objects, aiming to allow the creation by common users of scenarios and models for the composition of immersive three-dimensional virtual tours. Implemented in Swift language, SwiftUI interface and MVVM architecture, established and proven tools were used, such as git, jira, fastlane, bitrise and testflight, enabling continued development and integration.

Nelogica Sistemas de Software November 2018 - October 2020
Senior iOS Developer

Development of an iOS app for trading securities on the Stock Exchange. Creation of a binary data transmission platform between servers and mobile devices, complying with strict speed and reliability parameters. Participation in the implementation of graphical presentation of data, allowing trading directly on the graphics screen. Integration of app development and publication using current tools and methodologies, such as GitLab, Jira and Carthage.

RZ2 Sistemas de Gestão

April 2017 - November 2018

Senior iOS Developer

Development of applications for iPhone and iPad using the Swift language. The app developed implements a customizable questionnaire system that can be used in different scenarios, including stock control, logistics assistance and task optimization. The list of customers served includes Lojas Marisa, Camisaria Colombo, Toyota, Nissan, Renault, Pizza Hut, KFC, Habib's, Petróleo Ipiranga.

Lexsis Sistemas

March 2016 - April 2017

Senior iOS Developer

Development of applications for Android and iOS smartphones and tablets in Java and Swift languages, respectively. The applications are aimed at the restaurant industry.

It's Mobile Tecnologia e Inovação

May 2013 - March 2016

Desenvolvedor

Development of applications for iOS tablets in Objective-C, focusing on automating the sales force in an integrated manner with SAP systems, for clients such as Bettanin, Pado, Randon, Dudalina, among others.

ITM Consultoria e Negócios - Intermídia

July 2012 - May 2013

Desenvolvedor

Development of applications for mobile devices, in particular Apple iPad, with a focus on automating the footwear industry's sales force (Arezzo, Crysalis, Pegada, Piccadilly) using, mainly, Objective-C and SQLite.
